

NATO-STANDARD-CHARGER

The New Standard Charger
for all UAV applications

NATO based Supplychain: NDAA compliant

Certified: CE, UL

Interface connector to charge different batteries

Specifications:

	Min		Max	Unit
Configuration	6		14	S
Charging Range	15		60	V
Charging Power			300	W
AC Input (EU & US)	120		240	V
DC Input	12		24	V
Communication		UART & CAN		
IP Rating		IP55		
Compliance		UL, CE NDAA		

Description:

The NATO-STANDARD-CHARGER (NSC) is the solution for all UAV battery charging needs.

Its **versatile interface** supports a wide range of batteries, making it an ideal solution for diverse charging needs.

Fully NDAA compliant, certified and **industrialized** to the needs of the UAV industry.

NSC Configuration Overview:

Cable A:

EU AC cable

US AC cable

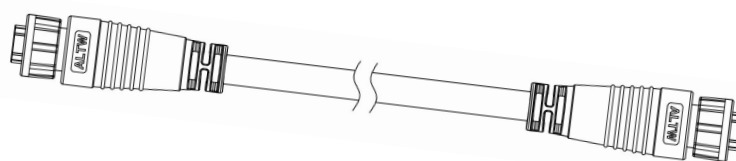

DC Input cable

Compact
Charger:

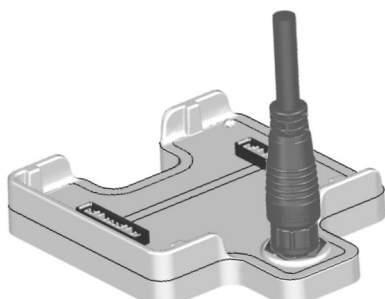

Cable B:

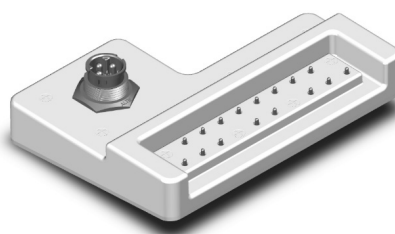

DC Charging Cable

Adaptor
Plate:

Prolanv Adaptor

Pogo Pin Adaptor

Custom
Charging
Adaptor tailored
to your need
